

## ON THAT DAY

© 2012 Pete Buchwald and Jamie Wolf

### VERSE 1

**C#m**                    **B**  
My mouth is dry  
**F#m**                    **A** **B**  
My heart is faint  
**C#m**                    **B**                    **G#m**                    **A**  
Why do You seem to hide Your face from me?  
The days drift by  
Yet time stands still  
And all the while I'm trying to believe  
**F#m**                    **E/G#**                    **A**                    **Bsus**  
Meet me now and show me how to close my eyes and see

### CHORUS

**E**                    **B/D#**  
On that day I will rise  
                  **C#m**                    **B**                    **A**  
I will stand before Your throne  
And in awe I will fall  
When these eyes behold the Lord of All  
                  **E/B**  
On that great and wondrous  
**A/C#**                    **B/D#**                    **Esus**  
Sacred and glorious day

### VERSE 2

And though some days  
I feel alone  
You take my hand in Yours and gently lead  
Your love is strong  
Your plan is sure  
You promised You'd prepare a place for me  
I'm on my knees, begging please, show me what will be
